

Video Learning Book

D&D OFFICE
DOCUMENT MANAGEMENT & CONSULTING

An innovative and alternative learning opportunity

The Ricoh Video Learning Book is an innovative, mobile and flexible learning solution for people who need to learn video-based information. It can be used as a standalone solution or part of a more extensive learning programme. As no Internet connection is required, it enables people to learn anywhere, anytime – without the distractions from an Internet-connected device.

- Highly flexible; easy to customise
- No need for Wi-Fi or Internet
- Rechargeable battery
- Available in several formats
- Integrated mini-USB slot
- Durable

Video Learning Book

The ideal mobile learning solution

Businesses can use the Ricoh Video Learning Book as a mobile learning solution, and save costs as there is no need to provide employees with computers, smartphones or tablets. It is perfect for people who want to learn outdoors or on the move, such as sales executives, service engineers and truck drivers. Students can take content home and view material in their own time. It's also ideal in situations where parents, managers or coaches need to understand what has been done in the learning sessions of their children, students or trainees, and need to be connected with the learning content and method.

Quick and easy to use

The Video Learning Book is extremely user-friendly. There's no need to start up a PC, find the right file and hope it plays. Simply press the start button of the video you want to watch and you are ready to learn. Adjust the volume – or use earphones. It is totally device and operating system independent; there's no need for Wi-Fi or Internet access. Video files can be played indefinitely because the battery can be recharged using the integrated mini-USB slot.

Available in various formats

The Video Learning Book is available in A5 or A5+, with a 4.3-inch or 5-inch LCD screen, in portrait or landscape. An accompanying A5 booklet can be added to the A5+ Video Learning Book.

The look and feel of the Video Learning Book is fully customisable.

Other book, screen and memory sizes are available on request, as is the option to have an earphone connection. Contact your local sales representative for assistance.
